Kirkan Wind Farm

TITLE: Figure 8.1.1 - Indicative track drainage arrangement Map 1 of 1

Note:

It is the contractors' responsibility to ensure that works are undertaken in compliance with the Water Environment (Controlled Activities) (Scotland) Regulations 2011 as amended.

This includes provision of appropriate temporary site sustainable drainage systems to manage construction runoff.

The contractors' site SuDS management plan will be submitted to SEPA for approval prior to works commencing. Detailed method of working may have to be amended to take account of the details.
